

My Services

How can I get the latest version of a mod by That Software Guy?

It's easy to get an upgrade for any module you bought from me. Just to go to my store, add the item(s) you want to upgrade, then checkout, and on the coupon page, enter the coupon code UPGRADE.

If your purchase was made in the last year, the upgrade is free; if it was made in the last 2 years, you get 50% off.

Note that you must login with the same email that you used to initially purchase the product.
